

100×100×5 底盘 / 4×M6 (对角100) / 4×M3+Φ7×2 沉孔 / 中央 Φ12×1 沉孔(顶) / 凸台 Φ65/Φ55 H23 / 套环 Φ80/Φ65 H13 / 槽口 75° - 105° 对齐

(沿 +Y 方向剖切, 过对齐槽口中分线 / cut along +Y axis through aligned notch bisector)

Technical drawing of a cross-shaped part. The central vertical hole has a diameter of $\Phi 7 \text{ mm}$. The horizontal arms have a width of 2 mm . The vertical arms have a width of $\Phi 3.2 \text{ mm}$. The total height of the part is 5 mm . The drawing uses standard engineering notation for dimensions and diameters.
